

# Adalyn Home Leather Construction

## Outside Back & Arms

Padded and reinforced outside backs and arms for added durability.

## Back Pad

Insulated back pad provides additional cushion for increased comfort and decreased cushion wear.

## Back Cushions

100% Dacron filled, channeled and Velcro attached back cushions.

## Accent Pillows

100% feather filled accent pillows with matching leather welting.

## Hand Rubbed Leather

We use quality 100% genuine cow hide leather.

## Removeable Seat Cushion

Removeable seat cushions are held in place with Velcro.

## Back Web Support

Resilient elastic webbing provides unequalled back support and firmness.

## Wood Frames

Frames are 100% hardwood with reinforced corners for maximum durability.

## Seat Construction

Seat construction is "TRUE" eight-way hand tied coil springs or no-sag springs for maximum durability and comfort.\*

## Seat Cushions

Seat cushions feature high density 2.0 high resiliency foam with 48 individually pocketed coils in each seat for optimal comfort.\*

## Seat Cushions

Feather fiber down envelope wrap on seat cushions.

## Padded Front Rail

Padded front rail gives additional leg support and comfort.

## Hand Tooled Details

Details such as solid wood accent legs and brass nailhead trim are hand applied.
