

Adalyn Home Leather Construction

Outside Back & Arms

Padded and reinforced outside backs and arms for added durability.

Back Pad

Insulated back pad provides additional cushion for increased comfort and decreased cushion wear.

Back Cushions

100% Dacron filled, channeled and Velcro attached back cushions.

Accent Pillows

100% feather filled accent pillows with matching leather welting.

Hand Rubbed Leather

We use quality 100% genuine cow hide leather.

Removeable Seat Cushion

Removeable seat cushions are held in place with Velcro.

Back Web Support

Resilient elastic webbing provides unequalled back support and firmness.

Seat Cushions

Feather fiber down envelope wrap on seat cushions.

Hand Tooled Details

Details such as solid wood accent legs and brass nailhead trim are hand applied.

Wood Frames

Frames are 100% hardwood with reinforced corners for maximum durability.

Seat Cushions

Seat cushions feature high density 2.0 or 2.4 high resiliency foam with 48 individually pocketed coils in each seat for optimal comfort depending on collection.

Padded Front Rail

Padded front rail gives additional leg support and comfort.

Seat Construction

Seat construction is "TRUE" eight-way hand tied coil springs or no-sag springs for maximum durability and comfort.
